

**CHEVRON I.T. SCHOLARSHIP APPLICATION**  
**Please Type**

Chevron has donated money to the CMIE Department to fund two \$1,000 and two \$500 scholarships one-time scholarships to undergraduate industrial engineering students interested in pursuing careers relating to information technologies and their use in business and manufacturing systems (for example, systems analysis, information systems design / management, systems integration, software project management, software quality assurance, business process reengineering / lean business process design, supply chain systems, human computer interaction). Applicants must have a minimum 3.0 GPA, be in good standing in the industrial engineering BS program at LSU, and complete & submit this form. Awards will be made competitively from the pool of applications received. Not all awards may be distributed in this round. A student may receive only one award from this fund per academic year. Evaluation criteria that will be considered include applicant's career plan statement and its relation to information technologies, academic credentials, good citizenship (involvement in student organizations, volunteer work, etc), and financial need.

**FALL DEADLINE: September 18, 2009**
